NEW YEAR'S GIFT.

Amongst the various articles which are now being offered as presents to friends none will be found more suitable to the season than a MODEL of the KOH-I-NOOR DIAMOND. In itself it is a beautiful object, being elegantly mounted and protected from injury by a glass shade; but it is additionally valuable as a peculiar memento of the Great Exhibition, which has given so great data to the year 1851, and which it is desirable to perpetuate. To the economy of the Model, as compared with the original (the property of her Majesty), the manufacturers have the permission of exceptional judges, and to the pleasing effect of long tested use they have received many flattering testimonials from those who have purchased copies; they are therefore convinced in recommending it as a really acceptable present. To be obtained from the Manufacturers, HARY and SONS, 33, 34, 35, Wych-street, Strand. Price, with Glass Shade, 10s.; Gilt Stand, 2s.; Packing Case, 1s. 6d. extra. Post-office orders payable at Gt. Russell.

BELL and CO., Stone-mills, 3, Wellington-street, Cornwall-road.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphuretted hydrogen, or gas of the sewer, and preserves its colour in any climate, where white-lead paint will not. Also Grey Paint, strongly recommended for iron-work.—Sold wholesale by JOHN WARNER and SONS, 6, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This elegant white, the favourite pigment of the architects of Rome, used by artists through successive generations, and still known by the name given by the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it as a price to compete with White Lead.

The successful introduction of this paint, and its confirmed superiority over every other paint hitherto known, brought forward various imitations.

These inferior preparations, frequently made from mine ores, contained colour, sand, arsenic, and other deleterious material, alike injurious to health, destruct to body, and refusing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever, it is beautiful in the appearance, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON PATENT,"

and if the cask has not been been so marked, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is entire, for every purpose to which lead paint is used. It is entirely free from all poisonous qualities, is unaffected by sea-water, sulphuretted hydrogen, or any gases or bodies in the sewer or its original colour, which White Lead Paint does not. White Zinc Paint cannot have of these reasons, immediately superseded by white lead, upon the human frame; neither painters' colic nor paralysis, &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and by which persons who inhabit newly-painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prices, apply to Mr. H. F. SCHMOLL, General Agent for England and Scotland, at the Company's Offices, 12, Manchester-buildings, Westminster-bridge; and for supply of materials and prices, of Messrs. CHAS. DEVAUX and CO'S, 36, King William-street, City.

"GUTTLEMEN, "8, Billiter-square,
